ACADEMIC STANDARDS AND ASSESSMENT REQUIREMENTS (CHAPTER 4)

The purpose of Chapter 4, Academic Standards and Assessment, of the Pennsylvania School Code is to establish rigorous academic standards and assessments “to facilitate the improvement of student achievement and to provide parents and communities a measure by which school performance can be determined”. As part of the Comprehensive Planning process, each LEA will report on their curriculum and assessment alignment to the Academic Standards.

ACADEMIC STANDARDS AND ASSESSMENT REQUIREMENTS

Chapter 4 specifies the minimum curriculum requirements that are to be provided within each grade band.

A written curriculum framework specifies what and when content is taught for each subject within the LEA. In this section, LEAs identify whether a written curriculum exists for each subject area and in what grade spans the subject is taught.

1. Identify your school entity type from the drop-down list:

School District

2. Identify the grade bands taught in your school entity and enter student population numbers:

Grade Bands	Taught in your School Entity	Student Population Numbers

3 - 5	Yes	1699
6 - 8	Yes	1836
9 - 12	Yes	2779
	Total	8030

Provided at the building level The school leader should reflect on school and/or LEA goals and draft a plan of action.

Individual principal choice The school leader and supervising administrator should agree upon the student performance measure(s) and criteria for delineating the four levels of student performance used to inform the educator rating. If using multiple measures, the school leader and supervising administrator should pre-determine the proportional significance (i.e., weighting) to be assigned to each measure.

ASSESSMENT

Chapter 4, Section 4.52, indicates that each school entity shall design an assessment system to do the following:

- Determine the degree to which students are achieving academic standards under Section 4.12 (relating to academic standards).
- Use assessment results to improve curriculum and instructional practices and to guide instructional strategies.
- Provide information requested by the Department regarding the achievement of academic standard.
- Provide summary information, including results of assessments under this section, to the general public regarding the achievement of students.

ASSESSMENT (CONTINUED)

EDUCATION AREAS OF CERTIFICATION

A locally-selected assessment is one of the indicators used for the Future Ready PA Index's Grade 3 and/or Grade 7 Early Indicators of Success.

Future Ready PA Index's Grade 3 Early Indicators of Success – No

Future Ready PA Index's Grade 7 Early Indicators of Success - No

Describe how your LEA uses benchmark and/or diagnostic assessments in instructional practices?

Benchmark assessments provide information on student understanding or performance against a set of standards. Benchmark assessments help educators or administrators track students' academic trajectory toward long-term goals. Depending on the timing of assessment feedback, this may be used more to inform instruction or to evaluate the quality of the learning environment. Diagnostic assessments provide a process to identify how a student is learning, where his strengths and weaknesses lie, and potential strategies to improve that learning. It focuses on individual growth.

Based on the responses above, would the planning, alignment, or analysis of current LEA assessment practices be a priority in your No
Comprehensive Plan?
