

# Come out to...

## Swiftwater Elementary Center's Family Math & Science Night!

When: Thursday, October 19, 2017

Time: 5:00pm-7:00pm

Location: Swiftwater Elementary Center

**In the Gym from 5:00pm-6:00pm**

Participate in fun math and science activities with your families!

**In the Cafeteria from 6:00pm-7:00pm**

**Prismatic Magic Presents**

**There will be two different assemblies!**

### Daytime Assembly

Laser Safari will send students on an incredible ecological adventure as they explore the secrets of two amazing ecosystems: Africa's Serengeti and South America's Amazon Rainforest.

Laser Safari recreates these destinations in dazzling laser light, so students can explore their unusual climates and specialized inhabitants. Combining elements of biology, ecology, meteorology, and environmental science.

### Evening Assembly

Discover how lasers transform space exploration. Be amazed as our laser projectors teach about the planets and the sun, and learn why today's most advanced space probes carry laser-powered instruments. And since no special dome is required, the entire student body can enjoy this riveting program at the same time.

**There will be door prizes and snacks for all who attend!**
