Wanna be a Farmer?

North America's largest Regenerative Organic farm is literally right here in Long Pond!

As such, Pocono Organics's feels it's our duty to develop youth educational programs created to teach kids about the importance of soil health & it's role in harvesting nutrient-rich produce in a fun hands-on environment.

Please share with parents, caregivers & educators as they seek solutions for kids programs that not only expand minds; but offer a weekend opportunity to socialize, unwind & really dig their hands in the dirt.
