UNIT 4: Survival in the Wild

GRADE: 7

KEY CONCEPTS: Survival in the Wild
This four-week unit of seventh grade continues the close examination of characters and examines how setting plays a role in their development.

THEME: Students read “The Song of Wandering Aengus” by William Butler Yeats and use it as a springboard for discussions of characters’ pursuits of the unknown. Students analyze the development of the theme of survival across various texts, evaluate nonfiction text structures, and present their analyses to their classmates. Students compare and contrast character experiences across novels, as well as the points of view in narration, and are encouraged to research the authors behind the stories, many of whom are wilderness survivors themselves. This unit ends with a review of Yeats’s poem in order to see how this unit led to deeper understanding of the work. In addition, students are asked to write an informative/explanatory essay in response to the essential question.

ESSENTIAL QUESTION: How does analyzing the theme of survival in literature lead to a deeper understanding of the literature?

UNIT OBJECTIVES:
- Analyze the development of characters and themes in texts about survival.
- Discuss how the authors' use of literary techniques in narration, such flashback and point of view, engage the reader.
- Write an argument about the importance of reading original versions of stories.
- Conduct research on authors who write about survival in the wild and present findings to the class.
- Compare and contrast a written story to the film version.
- Take comprehensible notes on important content, ideas, and details in texts (e.g., about character development).
- Write a survival-in-the-wild story using figurative language and exploiting nuances in word meaning for effect.

TERMINOLOGY:

UNIT 5: Science or Fiction?

KEY CONCEPTS: Science or Fiction?
This four-week unit of seventh grade examines the genre of science fiction and related science.

THEME: Like other genres studied to date, science fiction examines humanity, but often approaches characters and experiences in a futuristic context. Science fiction involves the imagining of ideas and technologies that haven’t yet been invented; however, many of them may comport with our current understanding of science and technology. In addition to exploring classic and contemporary works of science fiction, students pair fictional stories with informational texts about science and astronomy. Student discussions trace the logic of various storylines, focusing on the believability of the stories read in class. This unit ends with the students’ choice of writing an informative/explanatory essay in response to the essential question: What makes science fiction believable?

ESSENTIAL QUESTION: What makes science fiction believable?

UNIT OBJECTIVES:
- Compare and contrast the settings, characters, and unusual circumstances among science fiction stories and describe the unique nature of this genre.
- Analyze how a science fiction story evolves over the course of a text, and discuss how this is similar to and different from other novels read.
- Compare and contrast the ways in which two authors present information on the same topic (e.g., *astronomy in Beyond Jupiter and Summer Stargazing*).
- Conduct research on an astronaut or science fiction author of choice and present findings to the class in a multimedia format.
- Write a science fiction story.

TERMINOLOGY:
- Common settings for science fiction: in the future, alternate timelines, in outer space.
- Common themes for science fiction: time travel, alternate histories/societies, body and mind alterations.
- Fantasy versus science fiction.
