Families and Students,

Summer is quickly approaching. Beable has a tool that your children can use to learn about things they love during the summer. Your child's future is what's most important to you...and to our entire school and community! By using the Beable platform, your child will be taking real steps towards their future during the summer months. Access to Clever is available this summer and all you need is an Internet connection and a Web browser! Open a Web browser (Google Chrome, for example), navigate to family.beable.com, and click the **LOGIN WITH CLEVER** button. Clever's page will open, enter your school's name in the "Search for your school" box, and select it from the list. Click the **Login with Google button**, and use your student's Pocono Mountain SD email address and password. Once in, you'll see all of the applications available to you over the summer.

- Beable gives students fun and interesting topics to read about. The activities provide gaming options, and students at PMSD who used Beable this year shared that they enjoyed their time using Beable to learn about careers that they might like to focus on. **Encourage your child to log into Beable at least two times each week from home and complete lessons.**
- **Visit the Beable Family Hub at family.beable.com:** This is your home base to learn more about the partnership with Beable. But more importantly, it's a place you can come every week for information about different careers and engaging activities you can do with your children to help them improve their reading proficiency, their understanding of careers, and even their comfort level with financial literacy.

You'll be hearing more about Beable as the year progresses. We look forward to celebrating your child's success! If you have any questions, or need more information to support your child, please reach out to me anytime.

Happy summer,

Dr. Bethann McCain; Director of RELA (reading and English language arts)
