8.	Human Resource Management The Superintendent incorporates best practices for human resource management to research and analyze the internal components of the organization as a means to develop personnel in an efficient and effective manner in an effort to provide a quality education while meeting the needs of individual students throughout the recruitment and hiring of the most qualified candidates.				
	All teachers will be assigned within their Pennsylvania approved certification area(s). Each teacher will hold at least a Bachelor's degree and will demonstrate competency in content as designated by their respective areas of certification, which will support the quality and effectiveness of instructional practices in the core content areas. Human resources will foster ongoing professional growth utilize the personnel evaluation processes to provide feedback for improved performance and increased job satisfaction.
