## Our HISTORY of CYBER SUCCESS

PMSD has been operating its own cyber program for **grades 6-12** since 2010. Like the district's traditional "brick and mortar" schools, the cyber program is based on the Pennsylvania Academic Stand Standards, but our curriculum is developed by PMSD teachers and administrators.

Each course has been customized by district teachers to be district and state aligned, rigorous, interactive, and linked to real-world application.

PMSD School Performance Scores continue to exceed performance scores of all PA cyber charter schools.

ENROLL NOW - Applications available on the PMSD website at www.pmsd.org

HOW DO WE COMPARE?

No cyber-charter school in PA offers the high quality education available through PMSD. **The PMSD Cyber Program is the best choice for students:**
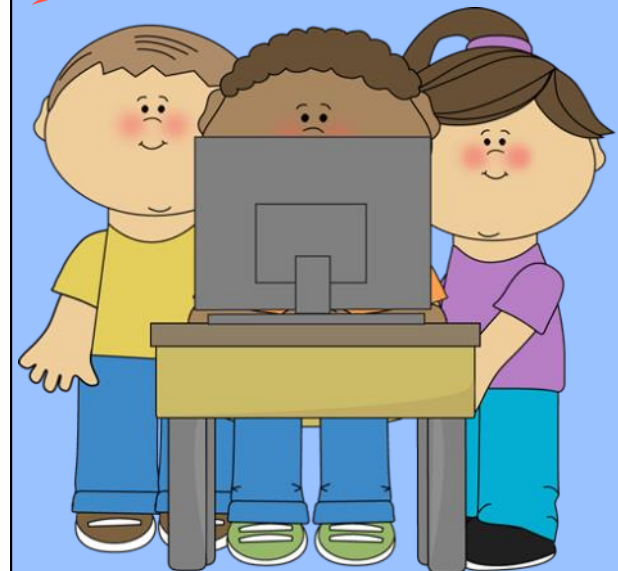

- Uses PMSD rigorous PA standard-aligned curriculum
- Taught by all PA highly-qualified, highly trained PMSD teachers
- Offers daily opportunities to socialize with students in the school communities

Education is the key to your child's future. Contact us today to learn more about our supportive and inclusive cyber school program.

JOIN THE POCONO MOUNTAIN SCHOOL DISTRICT CYBER PROGRAM ~ GRADES K–5 ~

Why our CYBER PROGRAM?

The PMSD Cyber Program gives elementary students the best of both worlds!

PMSD Cyber Program:

* Hybrid design combines best of online learning with partial day in school with classmates. Eat lunch at school and attend related arts classes!
* Personalized learning plan customized for each student
* Students take Mathematics and English Language Arts online at home
* Students have full access to district resources and facilities, including guidance counseling and libraries
* Students may join all district-sponsored extracurricular activities, including Band and Chorus
* Students may participate in **field trips, assemblies**, and **special events** at school

Choose PMSD's superior Cyber Program as your school of choice!

Unmatched Student Support!

PMSD Cyber Program is Supportive, Dynamic & Quality-Focused to meet all of your student's needs!

Our PMSD Cyber Program provides an integrated, team-based system of support from the dedicated classroom teacher responsible for student success to subject area teacher's lessons, as well as an extensive library of engaging, online stored media. We offer full 360-degree student support, engineered specifically for your student's educational success including:

* Dedicated highly-qualified PMSD teachers
* Ongoing communication with home school
* Enrichment and remediation
* High standards for all students attending our cyber program
* Provides supports and services under Chapter 14, 15, and 16 including a full-continuum of services in compliance with all federal and state laws
* Exceptional students attending our Cyber Program are provided access to the general education curriculum with specially designed instruction or accommodations/modifications based on the student's individual strengths and needs

Partners with Parents

PMSD Cyber Program partners with parents and understands parental support is crucial to student success. Our program gives parents the tools to succeed and easily monitor their student's daily attendance and academic progress.

* Offers flexibility many parents want/need
* Online grade book access
* PMSD teachers accessible via phone, email, and face-to-face conferences
* Computer/technology support available via phone and email
* Helps parents provide socialization skills and friendship opportunities so critical in the development of our young learners

Your child's education is one of the most important & challenging parental responsibilities - choose the PMSD Cyber Program now!
