

“This_(Dis) Ability”

Family Engagement Night

A Message of Diversity, Inclusion and Kindness

November 7, 2024
East High School
Auditorium
5:30 pm to 7:30 pm

Ben Hartranft shares his story and perspective on his life with autism. Truly approaching every situation with kindness and love, Ben has helped raise money for autism research while also being a case study himself. Ben’s mission is to build a community of people who will set an example of inclusion and kindness for all.

Ben’s parents will also share the journey through autism, detailing their lives as they walked the tightrope of parenting a child on the spectrum. Giving families hope for the successes of their children.

This Presentation is meaningful for parents of students of all ages on the Autism Spectrum. Community Resource Tables will be set up outside the Auditorium.
