October 10, 2023

Pocono Mountain School District will be conducting a student School Climate Survey to gather information as part of the district's Comprehensive Planning process. The survey will be given to students in grades 3 through 12 during the school day beginning Wednesday, October 11, 2023.

The survey is an online survey created by the district using Google Forms. The survey covers topics related to school climate, such as student perceptions on school safety, bullying, student interactions, teacher interactions with students, teacher supportiveness, and the importance of going to school and learning.

Individual student responses will be kept confidential. All of the survey questions have been reviewed by district administrators and are appropriate for school-aged students. A copy of the student School Climate Survey is available at your child's school if you would like to review it.

If you do not want your child to take the student survey, please notify your child's principal in writing by Wednesday, October 11, 2023. The survey is voluntary.

Thank you for your cooperation in this important study of student perceptions of their school's climate.

Sincerely,

A handwritten signature in cursive script that reads "Elizabeth M. Robison".

Elizabeth Robison
Superintendent of Schools
