Dear PMSD Parents/Guardians,

PMSD School Nurses are beginning the preparation for the 2020-2021 school year. In the current climate of COVID-19, we are aware that many things are unknown regarding our return to school. However, we have decided to move forward with planning for the best possibility.

The Pennsylvania Department of Health requirements for mandated exams, immunizations have not changed for the 2020-2021 school year. We understand that you may need to consult with your healthcare provider, and you may not be able to do that for several weeks. We also understand that it may be a period of time until appointments can be scheduled, and the appointments may be scheduled well into the future. Please know that PMSD School Nurses are here to work with you and to help you through this process. Please contact us via email if you have any questions or concerns.

Sincerely,

PMSD School Nurses
